Mr. Eckhardt thought that at one time the Government allowed as much as \$29,and a year toward the support of the hospital, and that of late years only about \$5,000, which is the reason the trustees are not able to carry out their planned improvements. The hospital obtained its charter in 1859 Their Majesties were the royal patrons thereof; King Kamehameha was its first president; he elected a board of trustees composed of 20 of the subscribers. Tea subscribers were elected by ballot to act as trustees on behalf of the subscribers; they were B. F. Snow, S. C. Damon, S. Castle, C. R. Bishop, J. W. Austin, E. Hall, J. T. Waterhouse, W. A. drich, W. L. Green and H. Hackfeld. Upon the nomination of the Minister of the Interior, His Majesty then designated the following ten persons, viz: Prince L. Kamehameha, David L. Gregg, Wm Webster, G. M. Robertson, T. C. Heuck,

Jehn Ladd, James Bissett, H. J. H. Holds.

These names are taken from the origi nal charter. But why the hospital should not be removed to higher and cooler altitude is not quite clear after reading article 12 in this charter. It reads; This charter, and every future charter to be used here, and hor- hereafter granted to this corporation, may b. altered or amended by the Minister of the laterier for the time being, with the strikers and militia in Montreal. approval of the King, on a requisition of a majority of the subscribers present at a general or special meeting to be called b; the secretary for that purpose-the nohang very excel- tice of such special meeting to be publishof in the newspapers of Honolulu at least They are thirty days before such meeting, and such painted by Mr. Cogs-notice to specify the purpose for which or 1001 that these por-such meeting has been called."
